

Caring for your Overland Outfitters products

Overland Outfitters products are made from military grade cotton duck canvas fabric and real leather and are designed to give years of service on the road and trail. A soft and dry bristled brush can be used to remove any loose dust or dirt.

To keep your product looking new longer, we recommend treating the fabric with Scotchgard Auto Fabric & Carpet Protector. Scotchgard provides excellent resistance to water, oil and stains and it doesn't change the look and feel of the fabric, so the fabric stays soft and colors stay true. Scotchgard comes in an easy-to-use spray bottle.

If the canvas needs further cleaning, mix clean water and a small amount of mild detergent and use a damp towel or bristled brush dipped in the solution and scrub or rub the dirty areas gently. Lightly spray the canvas area with water to remove the soap residue and dry with a towel.

Note: Do not Dry-Clean, bleach or put in the dryer as these may potentially discolor the canvas.

if your product will be exposed to extreme sun, for example your vehicle spends a lot of time with the top down or you park where intense sun shines through the vehicle windows, we recommend Scotchgard Water and Sun Shield, Gold Eagle 303 Aerospace Marine UV Protectant, Nikwax Tent & Gear SolarProof. These products offer additional protection from harmful UV rays and will also repel dust and dirt.
