

It's a

COOL BAG!

Perfect for a picnic on the trail or carrying juice boxes for the kids at a soccer game, the Cool Bag provides a lot of cool capacity in a compact size. Designed with lunch for two in mind, the Cool Bag hangs conveniently on the back of the seat or on any Molle panel, it's easy to stow out of the way but quick to access when you need lunch, a snack or a drink. A shoulder strap makes it easy to take with you when you park on the trail to take a hike to that amazing overlook for lunch.

Conveniently hangs on the seat back – out of the way but handy for quick access

Molle gear such as the bottle holders on the side in this photo and the pouches on the front expand capacity

Shoulder strap for easy carrying to that special scenic overlook.

Roomy, insulated interior keeps your lunch, snacks and drinks cool.

Easily carrying two foot-long subs (or salads), drinks for two, deserts and snacks, the Cool Bag does a lot for its compact size. A Molle grid on the front and both sides of the bag allows attachment of additional drink cooler pockets or Molle pouches for additional snacks or picnic gear.

The Cool Bag is constructed from high-quality military grade canvas with natural leather accents. Insulation and a waterproof interior keeps everything cool (or warm!).

Molle straps on the back enable it to also hang on any Molle panel.

KEEP IT COOL WITH A COOL BAG!
