

## SHERPA JL CUTLERY KEEPER

FOR THE OUTBACK ADVENTURES TRAILGATER JL

### INSTALLATION INSTRUCTIONS

**Please note:** The Cutlery Keeper is made from natural cotton and leather, it will stretch slightly over time. This is normal and the initial fit of the panel is designed to be very tight. There are five screws across the top and bottom which will control stretching over time, the panel is designed to be tight between the top and bottom screws. Doing the screws in canvas clockwise order, starting at the top left, you'll have to pull the bottom right corner of canvas a bit to stretch it to put the screw in, and stretch it a bit more for the bottom left screw. Finally, stretch all 3 webbing one-by-one to put the screw in.

Remove the top left second screw through the top right and parallel bottom 3 screws. Insert that screw through the top left grommet in canvas of the Cutlery Panel and put the screw back in the original hole in the Trailgater, leaving the screw slightly loose at this point. Continue clockwise around the Trailgater, removing/reinserting each screw in turn. When all 7 screws on canvas are installed in the Cutlery Panel, tighten all screws with the screwdriver. Now, remove 3 screws outside the canvas, insert the screws through the grommet in webbing starting from the top left to the bottom 2 grommets and tighten all screws.

### CARE INSTRUCTIONS

The SHERPA Cutlery Keeper is made from heavy cotton duck canvas fabric and leather and is designed to give years of service on the road and trail. Canvas is very easy to clean and handle - a soft and dry bristled brush can be used to remove any loose dust or dirt.

If the canvas needs further cleaning, mix clean water and a small amount of mild detergent and use a damp towel or bristled brush dipped in the solution and scrub or rub the dirty areas gently. Lightly spray the canvas area with water to remove the soap residue and dry with a towel. To keep the SHERPA Cutlery Keeper looking new longer, we recommend treating the fabric with Scotchgard Auto Fabric & Carpet Protector. Scotchgard provides excellent resistance to water, oil and stains and it doesn't change the look and feel of the fabric, so the fabric stays soft and colors stay true. Scotchgard comes in an easy-to-use spray bottle.

Note: Do not Dry-Clean, bleach or put in the dryer as these may potentially discolor the canvas or leather.
