ABOUT OUR PRODUCTS

We've been exploring off-road and overland for many years and all of our product designs come directly from that experience. Thousands of overland miles and tens of thousands of highway miles getting to the trails have given us a great understanding of what's needed and what's not;

ways to increase storage and utility, and above all, the ruggedness and quality necessary to hold up to critical situations.

Overland Outfitters was founded with two main goals:

1. Increase the utility and functionality of your expedition vehicle and improve expedition experience.
2. Bring a new level of quality, style and ruggedness to overland vehicle gear.

Our products are made from 24-ounce military grade canvas with real leather for reinforcement and style. Antique brass hardware and reinforcements and industry-leading YKK zippers are used for looks and durability.

Product color and vehicle fitment is indicated in this catalog with these symbols:

ABOUT OVERLAND OUTFITTERS

Based in the United States and in India, Overland Outfitters is proud to be a women of color owned and operated company.

All of our products are hand crafted in India by artisans who have practiced their craft for generations, ensuring the highest degree of quality and artistry.

SADDLE UP, PARDNER

Round up more usable space in your Jeep. Saddle up!

There's never enough storage in the Jeep for all the gear you need to take on an expedition, so making good use of unused space is always a priority. One space that's very hard to use is the the area over the inner fenders inside the Jeep - that space is sloped and curved so ordinary storage solutions just don't work there. The Overland Outfitters Saddlebags are specifically designed to optimize and maximize the use of that space. Attaching to the top edge of the tub using the factory provided hardtop bolt holes, the Saddlebags quickly zip in place over the inner fender. Form-fitted to conform to the slope and curves of the fender, each Saddlebag provides over 500 cubic inches of stylish storage in high-quality leather and canvas (The JLU Saddlebag is slightly smaller). The zipper attachment makes it quick and easy to take a Saddlebag with you when you need its contents away from the Jeep - unzip the bag from it's mounting strip and carry it away by the convenient handle; zip it back in place in the Jeep when you get ready to move on.

No-drill installation using the factory supplied hardtop bolt holes; works with a hard top, soft top, or no top. Mounting strips included.

Heavy-duty construction you can rely on. Provides over 500 cubic inches of interior storage space + side pockets for smaller items.

JK, JKU, JL: Sold as a pair - left and right
JLU: Sold as a pair for JLUs without a subwoofer; driver's side sold separately for JLUs with a subwoofer.

Genuine leather and military grade canvas. Brass reinforcements and heavy duty webbing.

JK/JK 2dr/JL 2dr: 16" x 11" x 7", 6.1lbs

JLU 4 Door: 14.5" x 11" x 7", 2.8 lbs

EXPEDITION OR OFFICE?

A classic messenger bag for trail or office.

BACKPACK MESSENGER BAG

Use it as a laptop bag, messenger bag or backpack – perfect for the office or for carrying gear on the trail. Attaches to the back of the seat in minutes with a sturdy zipper. Unzip and detach it from the headrest in minutes. Zip it back into place when you're done. Straps are included for over the shoulder use or wearing as a backpack. No need for extra seat covers or back panels to add storage to the back of your seat. Heavy duty in canvas with and leather construction with sturdy reinforcements.

The zipper strip quickly installs to the headrest - just remove the headrest, line up the holes, and re-insert the headrest! After the zipper strip is installed, the bag can be zipped & unzipped in seconds, giving you quick and easy access to your gear.

Military grade canvas and real leather
Antique brass reinforcements
18" x 10.5" x 6", 5.5 lbs

ZIP & GO BAG

A bit smaller than the Messenger Bag, this 15" Zip & Go bag is perfect for carrying gear, supplies or snacks. Uses the same sturdy zipper attachment as the Messenger Bag, these zip on and off in seconds. Chosen by Quadratec for their 30th Anniversary Jeep:

BETTER THAN MOLLE

TAILGATE STORAGE

Stronger. Better Looking. I wish I were talking about myself.

HD MOLLE TAILGATE PANEL

MOLLE. **M**odular **L**ightweight **L**oad-carrying **E**quipment. Designed by the military for easy attachment and organization of gear. MOLLE is a great way to organize storage in you Jeep, but most MOLLE products on the market are just not strong enough to handle the abuse of the trail. Or the mall. Our HD MOLLE Tailgate Panels are made from the same military grade canvas as our other products with real leather straps for attaching your pouches and other MOLLE gear. Perfect for use with our Grab & Go bags (next page).

Versions available for the JL/JLU, JK/JKU, TJ/LJ/YJ, in black and tan.

TAILGATE ACCESSORY PANEL

A no-drill way to carry extra gear on your JK/ JKU tailgate even if you already have a tailgate table or MOLLE solution on your tailgate. The Tailgate Accessory Panel replaces the snap-in access panel on the JK tailgate with HD MOLLE for carrying extra gear. It's compatible with most tailgate tables and tailgate storage solutions.

BETTER THAN MOLLE: **GRAB & GO**

If I never have to thread another set of MOLLE straps in my life it'll be too soon.

Unlike MOLLE gear, Grab & Go bags have easy to use slide-on clips on the back - slide the bag in place in seconds and when you need it grab it by the handle, pull to release and go.

Grab & Go clips also work with most other MOLLE panels and with most belts, so take your gear with you on a hike - pull a Grab & Go bag off the Jeep and clip it on your belt to take important gear and first aid supplies with you when you explore away from the vehicle. Or hook a Grab & Go bag to your tool belt at the job site.

Bags come in different sizes - 18", 12" & 6" in black or tan, and a 6" First Aid Bag in red to suit your storage needs and help organize your gear from tools and equipment to recovery gear.

Say goodbye to awkward MOLLE straps with quick and convenient Grab & Go clips:

The Grab & Go First Aid Bag has "fast flip" pages inside for quick access to the medical supplies you need when time is of the essence!

HEADREST MOLLE

Our HD MOLLE Headrest Cover installs quickly and easily with no modifications to the headrest or seat. Hand crafted from military grade canvas and heavy-duty leather MOLLE straps, it can hold our quick-release First Aid Bag + Grab & Go bag as well as most MOLLE bags. The stylish design looks great with leather or cloth interiors.

Installation is easy - simply remove the headrest from the seat, wrap the cover around the headrest, pull it tight and secure the velcro!

AT YOUR FINGERTIPS

What you need, where you need it.

GRAB BAR POCKETS

Our Grab Bar Pockets work great for holding cell phones, sunglasses and other small items your copilot will want to have handy on the road and on the trail. Made of military-grade cotton duck fabric with real leather accents, the Grab Bar Pockets attach to the passenger grab bar in your Wrangler - no tools are required for installation.

Offering three pockets in front of the grab bar and one wider pocket behind the bar, the Grab Bar Pockets put commonly used items at the fingertips of your copilot. One of the pockets has a leather flap and clasp and the other pockets are open at the top for quick access to things like cell phones.

The Grab Bar Pockets are compatible with the grab bars in all Wranglers – JL, Gladiator, JK, TJ and YJ, and CJs.

AT YOUR FINGERTIPS

If you don't use the factory net door pockets, they won't sag. Seriously? We've got a better plan.

DOOR POCKETS

Saggy factory door pockets? Don't feel bad, they all do that. Wish you had more storage in your Jeep? Want more and larger pockets for maps, phones and lots of other things you want to keep handy for access from your seat? The Overland Outfitters Door Pockets are what the factory should have provided in the first place.

A roomy pocket in the front with a flap will keep things in place and there's a wide map pocket along the side of the seat.

The Door Pockets are constructed from high-quality military grade canvas with natural leather accents and includes high-end features like stylish linings in the pockets.

ROLL WITH IT

Tactical gear storage on your roll bars

ROLL BAR BUDDIES

Flashlight? Check. Multi-tool? Check. Tire pressure gauge for airing down? Check.

Where do you store these and the other little but critical tools and gear for your adventure? Sunglasses? Extra masks? Keep these and other items handy in our Roll Bar Buddies.

Available in two versions – the

Tactical version holds a tactical flashlight, two pen-sized tools like a pressure gauge, and it has two magazine-size pockets for your multi-tool or pen knife. The Pocket version has two roomy 3 1/2" x 7" x 1 3/4" pockets, perfect for sunglasses, tools and more. Easy installation on JL, Gladiator, JK, TJ and YJ roll bars.

THAT'S HOW WE ROLL

Convenient storage on your roll bars

ROLL BAR BAG

16" long and 4.5" in diameter, the Roll Bag's 256 cubic inch capacity can store all sorts of gear - recovery straps, flashlights, tools, emergency medical supplies and more. The Roll Bag quickly secures on your roll bar with easy-to-use Cam Buckles - open a buckle, pull the strap tight and close the buckle - the Roll Bag is easy to secure tightly to the roll bar and quick and easy to remove when necessary.

Overland Outfitter's Tool Roll & Cutlery Keeper can also be easily rolled & stored inside the bag.

Like all Overland Outfitters products, Roll Bags are constructed from heavy-duty canvas with leather accents and reinforcements and an attractive lining.

Above the front seats

Above the rear seats (LJ)

On the rear down bars

On the main hoop down bars

On the main hoop over the front seats

On the main hoop over the rear seat

Fits great on the rear vertical bars in a Gladiator:

TOOL ROLL

The Tool Roll keeps all your tools in one place & provides them safety from the elements, as well as being easily storable (it'll fit very nicely inside a Roll Bag).

When you ride on the trail, the last thing you want to deal with is tools rattling and rolling around. Our tool roll provides quick access and easy storage for your wrenches, pliers and screwdrivers.

OVERLANDING/CAMPING

It's called "your morning routine" for a reason.

CAMP CABINET

When you're out on an overland adventure it can be hard to organize the necessities of your daily routine – what do you carry them in, what workspace do you use (the bathroom sink is far away), and how to you inspect your work? No problem, the Camp Cabinet provides ample organized storage for all of your necessities, a convenient work surface and a high quality real glass mirror.

The bag opens into an organized workspace and easily hangs in almost any convenient place – you can hang it on a roll-down car window or the drip rail of your vehicle roof using the supplied hooks or use the clip-on carrying handle to hang it around a convenient branch or tent pole.

In addition to the pockets inside, there are outside pockets on each side of the bag for extra storage.

The Camp Cabinet is constructed from high-quality military grade canvas with natural leather accents and includes high-end features like stylish linings in the pockets. The mirror is high quality real glass, protected completely protected when the bag is zipped closed to prevent damage.

OVERLANDING/CAMPING

Can you please pass me a fork?

CUTLERY KEEPER

The Cutlery Keeper is the perfect storage solution for your trail kitchen. It rolls up for easy storage and fits nicely in our Roll Bar Bag (page 11). And if you've got an Outback Adventure Products Trailgater or a Goose Gear Tailgate Table, the Cutlery Keeper can be installed on the taiglate behind those tables, and it stays in place when the table is closed – your cutlery is ready for use as soon as you open the table!

Hand crafted with genuine leather, military grade canvas & brass reinforcements. Easy no-drill attachment with the Outback Trailgater and Goose Gear Tailgate tables.

Available for use standalone and with the following tailgate tables:

Trailgater Cutlery Keeper available for both JK and JL Trailgater tables.

Goose Gear Cutlery Keeper available for the JL.

LIFE IS A PICNIC

If life is supposed to be a picnic,
why weren't we all born with this bag?

COOL BAG

Perfect for a picnic on the trail or carrying juice boxes for the kids at a soccer game, the Cool Bag provides a lot of cool capacity in a compact size. Designed with lunch for two in mind, the Cool Bag hangs conveniently on the back of the seat. It's easy to stow out of the way but quick to access when you need lunch, a snack or a drink. A shoulder strap makes it easy to take with you when you park on the trail to take a hike to that amazing overlook for lunch.

Conveniently hangs on the seat back – out of the way but handy for quick access

Molle gear such as the bottle holders on the side in this photo and the pouches on the front expand capacity

Roomy, insulated interior keeps your lunch, snacks and drinks cool.

Shoulder strap for easy carrying to that special scenic overlook.

Easily carrying two foot-long subs (or salads), drinks for two, deserts and snacks, the Cool Bag does a lot for its compact size. MOLLE grids on the front and both sides of the bag allows attachment of additional drink cooler pockets or MOLLE pouches for additional snacks or picnic gear.

The Cool Bag is constructed from high-quality military grade canvas with natural leather accents. Insulation and a waterproof interior keeps everything cool (or warm!).

KEEP IT COOL WITH A COOL BAG!

AIR UP!

It's what you need to do after you air down.

COMPRESSOR BAG

A portable air compressor can be a very useful tool when you're on an expedition – whether for reinflating after airing down or for tire repairs on the trail, it can be one of the most important pieces of gear you carry. But how to carry it? Most compressor bags are too small to carry the compressor, an air hose and the many tools, accessories and tire repair supplies you might need to carry, not to mention being strong enough to carry all of the weight.

Space inside for a coiled air hose or a 25' FlexZilla air hose.

Additional inside pocket (behind air hose in this photo)

Space inside for all popular portable compressors and power cords as well as the air hose

Inside pocket for supplies – tire repair supplies, compressor accessories

Quick access to common tools like pressure gauge and inflator

Includes shoulder strap and carrying handles

Shown above with a 25' Flexzilla air hose

In addition to the pockets inside, there are outside pockets on each side of the bag for extra storage.

The Compressor Bag is constructed from high-quality military grade canvas with natural leather accents and includes high-end features like stylish linings in the pockets.

The Compressor Bag is available in black only.

GLADIATOR STORAGE SYSTEM

Improve storage in the cab.

The Gladiator Storage System is a unique storage solution for the dead space behind your Gladiator's rear seats. The panel has zippers that allow you to add Zip & Go bags that hang from the bottom edge of the panel providing additional storage.

Six pockets of various sizes are on the panel and the panel also has three zippers along the bottom to which a Gear Storage Bag can be attached.

For Gladiators without a subwoofer, three Zip & Go Bags can be attached; if a subwoofer is present one Gear Bag can be attached on the driver's side.

Installs in minutes: No drilling required - 4 Button head Allen bolt 8x25mm; 1.25 pitch included for Gladiators without hard tops.

The 15" Zip & Go bag can also be hung on the back of the front seat and comes with the same zipper attachment that our Backpack bag uses.

BRONCO GEAR

Outfitting your new Bronco for Overlanding and off-road expeditions? Or just looking to maximize your storage and organization for daily driving? Overland Outfitters has got you covered. Our storage solutions are hand crafted from military-grade canvas with real leather accents and reinforcements.

HD MOLLE TAILGATE PANEL

Add storage to your Bronco tailgate with the HD MOLLE Tailgate Panel. The HD MOLLE Panel and Grab & Go Bags are hand crafted using genuine leather and military grade canvas, styled with antique brass eyelets and reinforced with nylon. No-drill Installation is quick and easy!

GRAB & GO BAGS

The panel supports standard MOLLE gear and Overland Outfitters easy-attach Grab & Go bags – using a belt clip style attachment, Grab & Go bags attach and remove from the panel instantly, eliminating the hassle of threading MOLLE straps to hang a bag.

DOOR POCKETS

Replace the weak factory door pocket nets with a roomy, closed pocket made from heavy canvas and real leather. Provides much more space for gear than the weak factory net, and items in the pocket won't poke through or permanently stretch the net. No-drill!

BRONCO GEAR

ROLL BAR BAG

The Roll Bar Bag fits perfectly on the Bronco's rear roll bars and can hold a recovery strap, a tool roll or many other pieces of essential gear. Made from the same heavy canvas and leather, the Tool Roll is a perfect fit in the Roll Bar Bag and a convenient place for critical tools:

TOOL ROLL

The Backpack Messenger Bag has a convenient zipper attachment; it hangs on the seat back and zips on or off in seconds. With the included shoulder strap or backpack straps it's a high quality, high style cargo carrier for any adventure, including bringing your laptop to an important meeting.

BACKPACK BAGS

A bit smaller than the Backpack Messenger Bag, the Zip & Go Bag is a shares the same convenient zipper attachment to the seat back and provides convenient, out of the way storage.

The Molle headrest cover is a stylish way to add storage to the back of the headrest. With its easy velcro attachment it installs in a minute and standard Molle pouches and gear and easily be stored on it.

HEADREST MOLLE

Our Grab & Go First Aid Bag and 6" Gear Bag are the perfect complement to the Headrest Molle.

Caring for your Overland Outfitters products

Overland Outfitters products are made from military grade cotton duck canvas fabric and real leather and are designed to give years of service on the road and trail. A soft and dry bristled brush can be used to remove any loose dust or dirt.

To keep your product looking new longer, we recommend treating the fabric with Scotchgard Auto Fabric & Carpet Protector. Scotchgard provides excellent resistance to water, oil and stains and it doesn't change the look and feel of the fabric, so the fabric stays soft and colors stay true. Scotchgard comes in an easy-to-use spray bottle.

If the canvas needs further cleaning, mix clean water and a small amount of mild detergent and use a damp towel or bristled brush dipped in the solution and scrub or rub the dirty areas gently. Lightly spray the canvas area with water to remove the soap residue and dry with a towel.

Note: Do not Dry-Clean, bleach or put in the dryer as these may potentially discolor the canvas.

if your product will be exposed to extreme sun, for example your vehicle spends a lot of time with the top down or you park where intense sun shines through the vehicle windows, we recommend Scotchgard Water and Sun Shield, Gold Eagle 303 Aerospace Marine UV Protectant, Nikwax Tent & Gear SolarProof. These products offer additional protection from harmful UV rays and will also repel dust and dirt.
