38	Caring for your Overland Outfitters Products

ABOUT OUR PRODUCTS

We've been exploring off-road and overland for many years and all of our product designs come directly from that experience. Thousands of overland miles and tens of thousands of highway miles getting to the trails have given us a great understanding of what's needed and what's not; ways to

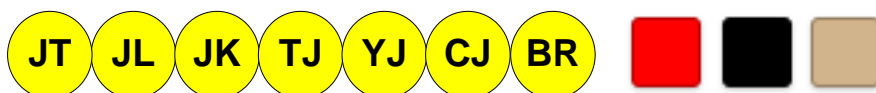

increase storage and utility, and above all, the ruggedness and quality necessary to hold up to critical situations.

Overland Outfitters was founded with two main goals:

1. Increase the utility and functionality of your expedition vehicle and improve expedition experience.
2. Bring a new level of quality, style and ruggedness to overland vehicle gear.

Our products are made from 24-oz. military grade canvas with real leather for reinforcement and style. Antique brass hardware and reinforcements and industry-leading YKK zippers are used for looks and durability.

Product color and vehicle fitment is indicated in this catalog with these symbols:

JT = '20-present Gladiator pickup

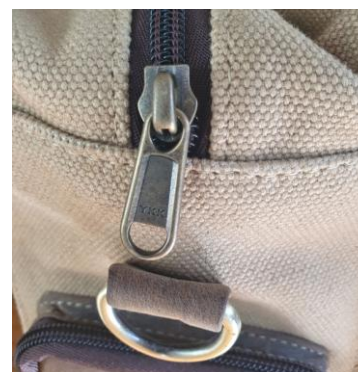

JL = '18-present Wrangler, JLU = 4 door

JK = '07-'18 Wrangler, JKU = 4 door

TJ = '97-'06 Wrangler

YJ = '87-'95 Wrangler

BR = New Bronco

ABOUT OVERLAND OUTFITTERS

Based in the United States and in India, Overland Outfitters is proud to be a women of color owned and operated company.

All of our products are hand crafted in India by artisans who have practiced their craft for generations, ensuring the highest degree of quality and artistry.

NEW PRODUCT!

STORAGE ON THE SPARE

S.O.S. FOR EXPEDITION STORAGE

We all know there's NEVER enough storage in a Jeep, especially for an extended expedition. Some things you need to have handy for quick access, like recovery straps and other emergency gear – you don't want that stuff buried under all of the other gear you've crammed into the Jeep. And there are things best stored outside the cabin, such as campsite trash and recycling. Our collection of configurable spare tire mounted storage can ease your storage challenges.

Tactical Spare Cover. Unlike most spare covers, this one has real functionality.

MOLLE grids on the face and sides allow for adding extra pouches and other MOLLE gear. There's also a pocket hidden behind the face - perfect for things like recovery straps.

Available to fit several popular tire sizes. Not recommended for the JL because it will obscure the backup camera.

Weather Resistant MOLLE Pouches.

MOLLE pouches are great, but how many of them are made from weather resistant materials so they can survive the elements? Not many, but ours are. Available in two sizes, these can be used on the Tactical Spare Cover or anywhere else you might have MOLLE attachments.

NEW PRODUCT!

STORAGE ON THE SPARE

S.O.S. FOR EXPEDITION STORAGE

Spare Side Bags. Made from heavy twill-weave DWR*-treated polyester fabric with real leather belts for strength, durability and UV-resistance, the Spare Side bags expand your cargo/gear carrying capacity for those overland/camping expeditions.

Easily attaches to your spare - the four sturdy double-fold MOLLE straps on the back quickly attach them to either our Tactical Spare Cover or our MOLLEWrap.

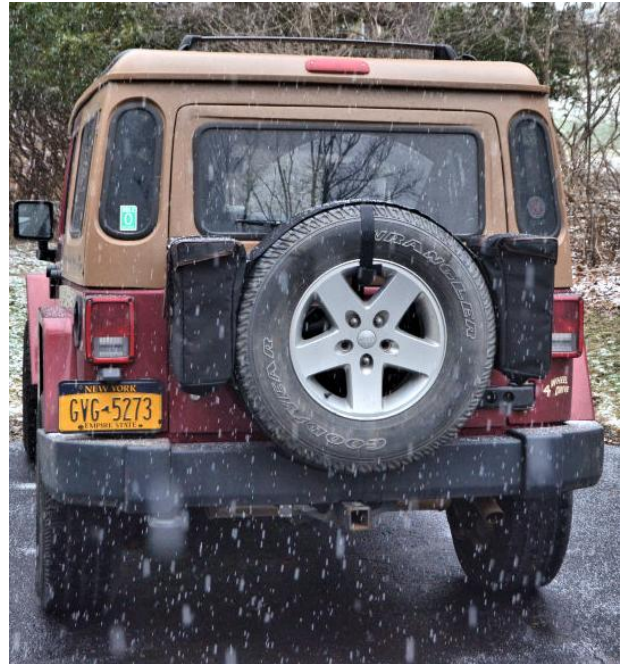

A stylish leather strap with a buckle secures the lid and provides adjustment for larger loads and a hidden parachute buckle make opening the top a snap. Weather resistant materials and construction ensure your gear will remain protected and dry.

For trash use, they accommodate a 3-4 gallon small kitchen trash bag.

For carrying these or any other MOLLE pouches or gear, our **MOLLEWrap** quickly attaches to the spare - it's easy to install so you only need to have it on the spare when you need to carry something.

The MOLLEWrap is designed especially for the Spare Side bags and our Weather-Resistant MOLLE bags and of course it's compatible with standard MOLLE gear as well. Great for the JL - doesn't obscure the backup camera!

* DWR = Durable Water Resistant

Storage with style. One for trash and one for recycling while overlanding?

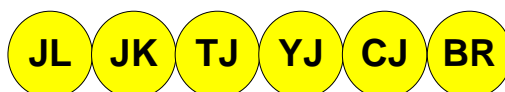

The MOLLEWrap provides handy MOLLE storage on your spare.

Two Spare Side bags installed on a MOLLEWrap plus a SpareHopper.

Always Tread Lightly! Carry out everything you carry in.

NEW PRODUCT!

SPARE HOPPER

SPARE TIRE GEAR/TRASH BAG

Spare tire bags are a very useful accessory for your overland vehicle – capable of carrying gear or trash, the SpareHopper bag will do it in style. Made from heavy twill-weave DWR*-treated polyester fabric with real leather belts for strength, durability and UV-resistance, the Spare Hopper will go the distance - it'll hold up under extreme trail and sun conditions and its over 3200 cubic inch capacity can carry whatever you need.

The SpareHopper easily attaches to your spare with cross-straps made from heavy duty 2" webbing secured with easy-to-use parachute buckles.

For trash use, it accommodates a common 13 gallon kitchen trash bag.

Stylish leather straps and buckles secure the lid and provide adjustment for larger loads, and hidden parachute buckles make opening the top a snap.

The SpareHopper with the MOLLE Wrap and two SpareSide bags.

NEW PRODUCT!

STORAGE ON THE SPARE

A MODULAR SYSTEM

The **Storage On the Spare system** is highly configurable – mix and match the components to suit your particular storage needs for any expedition.

The **Tactical Spare Cover** has MOLLE on the face and sides and can support SpareSide bags and Weather Resistant MOLLE bags, plus it has a handy pocket in the face

The **Spare Side Bags** can mount on the side of the Tactical Spare Cover above, or mount on the MOLLE Wrap (bottom of page).

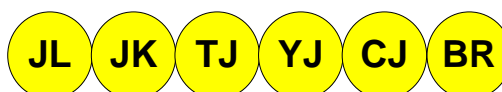

The **Weather Resistant MOLLE Bags** can mount on the face or side of the Tactical Spare Cover, or on the sides of the MOLLE Wrap. Available in 6" and 12" sizes.

The large **Spare Hopper** can mount on the tire by itself or in combination with the MOLLE Wrap for additional capacity.

The **MOLLE Wrap** can carry the SpareSide Bags, the Weather Resistant MOLLE Bags, or any generic MOLLE gear. Compatible with the JL rear view camera and with third-party accessories that mount behind the spare such as the MORyde Jerry Can Carrier.

Always Tread Lightly! Carry out everything you carry in.

NEW PRODUCT!

MULTI-FOLD KIT BAG

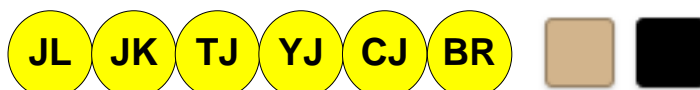

A kit for wherever and however you travel

We searched for a long time for the perfect travel toiletry kit – something we could easily fit in whatever bag we're carrying on the trip, would hold our important toiletry essentials (toothbrush, toothpaste, medicines, razor, etc.) and we couldn't find anything that really met our needs. Something convenient on the sinktop in a hotel or in an airplane lavatory. Something you can hang on a tree in the wild. Something with multiple pockets to keep us organized.

Everything on the market was either a simple bag or something that worked best when hanging on a hook. Nothing in between. So we designed one that's perfect everywhere we go, and we think it'll be perfect for your travels too.

The Multi-Fold MOLLE Kit folds into a compact package, not much larger than most simple toiletry bags, but open it up and three separate pouches unfold. It sits perfectly on a crowded sinktop and allows access to all three compartments. Take it into the wild and it hangs easily on a tree and still allows perfect access.

Equipped with a convenient carry/hanging handle, it also has MOLLE straps on the back so you can hang it on whatever MOLLE panel you've got in your vehicle (or on your person), and it opens and unfolds just fine while hanging from its MOLLE straps.

NEW PRODUCT!

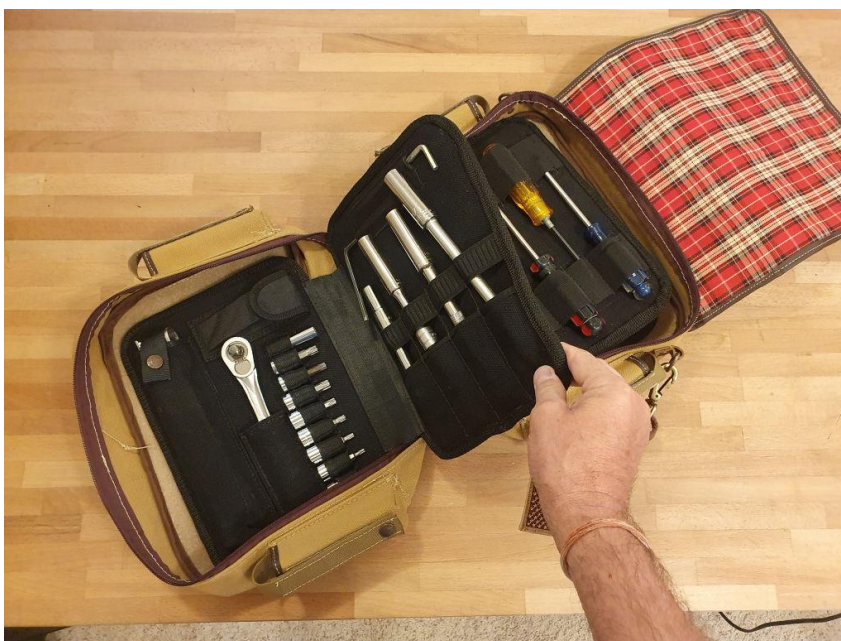

TACTICAL TOOL BAG

“Tool Bag” shouldn’t mean a jumble of tools at the bottom of a dark bag.

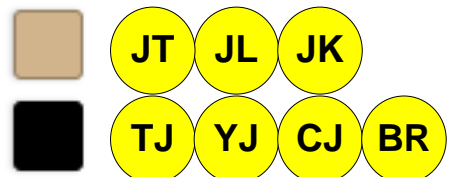

A set of tools is an important part of being prepared for whatever confronts you on the trail, on an expedition or even on a trip to the mall. But just throwing your tools into a jumble in the bottom of a bag isn’t the best way to do it. You want to be organized, every tool its place and at your fingertips when needed.

The Tactical Tool Bag organizes everything in flip-out “pages” to make it quick and easy to find the tool you need - and makes it quick to make sure you’ve replaced all the tools you’ve used so you don’t leave any in the dirt on the trail.

Includes 6 handy pockets on the outside, plus MOLLE on the flap for any extra pouches you might need for special items or parts. Conveniently hangs on the seat back using our “Zip & Go” attachment.

Flip through the “pages” to find exactly what you need.

SADDLE UP, PARDNER

Round up more usable space in your Jeep. Saddle up!

There's never enough storage in the Jeep for all the gear you need to take on an expedition, so making good use of unused space is always a priority. One space that's very hard to use is the area over the inner fenders inside the Jeep - that space is sloped and curved so ordinary storage solutions just don't work there. Our Saddlebags are specifically designed to optimize and maximize the use of that space. Attaching to the top edge of the tub using the factory provided hardtop bolt holes, the Saddlebags quickly zip in place over the inner fender. Form-fitted to conform to the slope and curves of the fender, each Saddlebag provides over 500 cubic inches of stylish storage in high-quality leather and canvas (The JLU Saddlebag is slightly smaller). The zipper attachment makes it quick and easy to take a Saddlebag with you when you need its contents away from the Jeep - unzip the bag from its mounting strip and carry it away by the convenient handle; zip it back in place in the Jeep when you get ready to move on.

No-drill installation using the factory supplied hardtop bolt holes; works with a hard top, soft top, or no top. Mounting strips included.

Heavy-duty military grade canvas and leather construction you can rely on.

JK, JKU, JL: Sold as a pair - left and right

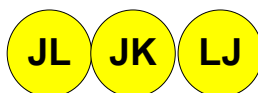

JLU: Sold as a pair for JLUs without a subwoofer; driver's side sold separately for JLUs with a subwoofer.

JK/JK 2dr/JL 2dr: 16" x 11" x 7", 6.1lbs

JLU 4 Door: 14.5" x 11" x 7", 2.8 lbs

Compatible with the JL One-Touch Skytop; ask for special installation instructions for that top.

The JKU Saddlebags are also a direct fit in the '04-'06 LJ Wrangler Unlimited!

EXPEDITION OR OFFICE?

A classic messenger bag for trail or office.

BACKPACK **MESSENGER BAG**

Use it as a laptop bag, messenger bag or backpack – perfect for the office or for carrying gear on the trail. No need for extra seat covers or back panels to add storage to the back of your seat - attaches to the back of the seat in minutes with a sturdy zipper. Unzip and detach it from the headrest in seconds. Zip it back into place when you're done. Straps are included for over the shoulder use or for wearing as a backpack. Heavy duty canvas and leather construction with sturdy reinforcements.

The zipper strip quickly installs to the headrest - just remove the headrest, line up the holes, and re-insert the headrest. After the zipper strip is installed, the bag can be zipped & unzipped in seconds, giving you quick and easy access to your gear.

Military grade canvas and real leather
Antique brass hardware
18" x 10.5" x 6", 5.5 lbs

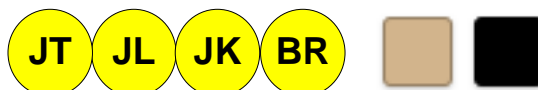

ZIP & GO BAG

A bit smaller than the Messenger Bag, this 15" Zip & Go bag is perfect for carrying gear, supplies or snacks. Uses the same sturdy zipper attachment as the Messenger Bag, these also zip on and off in seconds.

Chosen by Quadratec for their 30th Anniversary Jeep:

Optional zipper attachments are also available for JKU rear seats and TJ and YJ front seats as well as adjustable zipper attachments for vehicles other than Wranglers or Broncos (Cherokees for example).

JEEP GOT THIS WRONG...

AT YOUR FINGERTIPS

If you don't use the factory net door pockets, they won't sag.
Seriously? We've got a better plan.

FRONT DOOR POCKETS

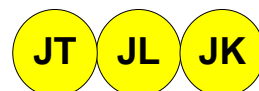

Saggy factory door pockets? Don't feel bad, they all do that. Wish you had more storage in your Jeep? Want more and larger pockets for maps, phones and lots of other things you want to keep handy for access from your seat. Our Door Pockets are what the factory should have provided in the first place.

A roomy pocket in the front with a flap will keep things in place and there's a wide map pocket along the side of the seat.

Available for JK/JKU, JL/JLU and Gladiator.

The Door Pockets are constructed from high-quality military grade canvas with natural leather accents and include high-end features like stylish linings in the pockets.

... AND YOU CAN FIX IT

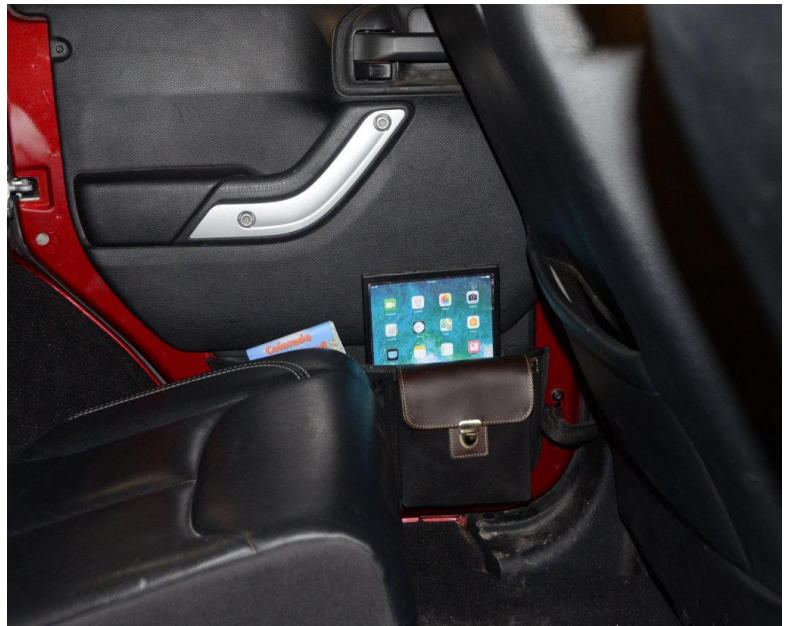

AT YOUR FINGERTIPS

Your passengers should have convenient storage too.

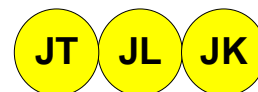

REAR DOOR POCKETS

Our back door pockets provide a surprising amount of extra storage where the factory only provided weak and saggy nets. A very roomy pocket with a flap to keep your gear safe and secure is at the front and a similar-sized open pocket is at the rear of the door. And even better, there's a full-width pocket behind the other two pockets – check out the tablet in the pockets in these photos.

Available for JKU, JLU and Gladiator.

< Even when only you will know it's there – style inside and out.

NEW PRODUCT!

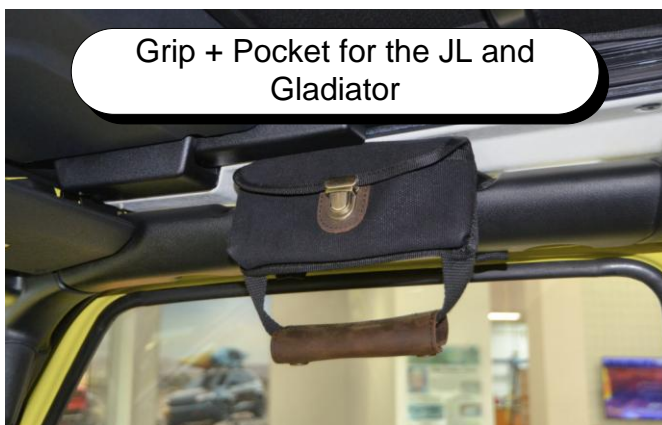

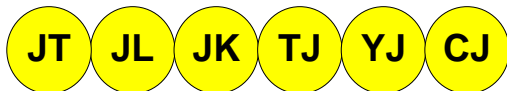

GRAB HANDLES

Grab hold of this!

If you or your passengers struggle to get into your Jeep, either because your Jeep is lifted or your passengers are Altitude Challenged, our Grab Handles are the solution - the large leather grip is as comfortable as it is stylish – looks great and feels great.

Grab Handles are available in three versions, all with the same large leather grip:

- JL/Gladiator
- JK/TJ/LJ/YJ/CJ
- JL/Gladiator + Pocket, perfect for sunglasses, cell phones or other gear you need to have handy
(not for the Gladiator rear seat)

AT YOUR FINGERTIPS

What you need, where you need it.

GRAB BAR POCKETS

Our Grab Bar Pockets work great for holding cell phones, sunglasses and other small items you or your copilot will want to have handy on the road and on the trail. Made of military-grade cotton duck fabric with real leather accents, the Grab Bar Pockets attach to the passenger grab bar in your Wrangler - no tools are required for installation.

Offering three pockets in front of the grab bar and one wider pocket behind the bar, the Grab Bar Pockets put commonly used items at your fingertips or your copilot. One of the pockets has a leather flap and clasp and the other pockets are open at the top for quick access to things like cell phones.

The Grab Bar Pockets are compatible with the grab bars in all Wranglers – JL, Gladiator, JK, TJ and YJ, and CJs.

ROLL WITH IT

Tactical gear storage on your roll bars

ROLL BAR BUDDIES

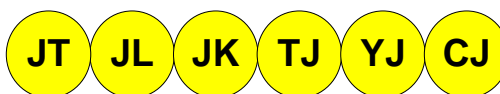

Flashlight? Check. Multi-tool? Check. Tire pressure gauge for airing down? Check.

Where do you store these and the other little but critical tools and gear for your adventure? Sunglasses? Extra masks? Keep these and other items handy in our Roll Bar Buddies. Available in two versions – the

Tactical version holds a tactical flashlight, two pen-sized tools like a pressure gauge, and it has two magazine-size pockets for your multi-tool or pen knife. The Pocket version has two roomy 3 1/2" x 7" x 1 3/4" pockets, perfect for sunglasses, tools and more. Easy installation on JL, Gladiator, JK, TJ and YJ roll bars.

Installs on the roll bar over the front doors or over the rear doors on 4-dr Jeeps.

THAT'S HOW WE ROLL

Convenient storage on your roll bars

ROLL BAR BAG

16" long and 4.5" in diameter, the Roll Bag's 256 cubic inch capacity can store all sorts of gear - recovery straps, flashlights, tools, emergency medical supplies and more. The Roll Bag quickly secures on your roll bar with easy-to-use Cam Buckles - open a buckle, pull the strap tight and close the buckle - the Roll Bag is easy to secure tightly to the roll bar and quick and easy to remove when necessary.

Overland Outfitter's Tool Roll, Cutlery Keeper and Cutlery Roll can also be easily rolled & stored inside the bag.

Like all Overland Outfitters products, Roll Bags are constructed from heavy-duty canvas with leather accents and reinforcements and an attractive lining.

Above the front seats

Above the rear seats (LJ)

On the rear down bars

On the main hoop down bars

On the main hoop over the front seats

On the main hoop over the rear seat

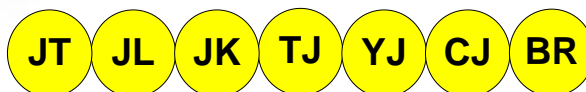

Fits great on the rear vertical bars in a Gladiator:

TOOL ROLL

The Tool Roll keeps all your tools in one place & provides them safety from the elements, as well as being easily storable (it'll fit very nicely inside a Roll Bag).

When you ride on the trail, the last thing you want to deal with is tools rattling and rolling around. Our tool roll provides quick access and easy storage for your wrenches, pliers and screwdrivers.

BETTER THAN MOLLE:

GRAB & GO

If I never have to thread another set of MOLLE straps in my life it'll be too soon.

Unlike MOLLE gear, Grab & Go bags have easy to use slide-on clips on the back - slide the bag in place in seconds and when you need it grab it by the handle, pull to release and go.

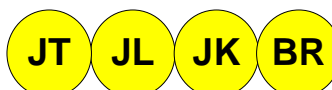

Grab & Go clips also work with most other MOLLE panels and with most belts, so take your gear with you on a hike - pull a Grab & Go bag off the Jeep and clip it on your belt to take important gear and first aid supplies with you when you explore away from the vehicle. Or hook a Grab & Go bag to your tool belt at the job site.

Bags come in different sizes - 12" & 6" in black or tan, and a 6" First Aid Bag in red to suit your storage needs and help organize your gear from tools and equipment to recovery gear.

Say goodbye to awkward MOLLE straps with quick and convenient Grab & Go clips:

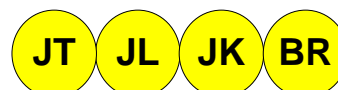

The Grab & Go First Aid Bag has "fast flip" pages inside for quick access to the medical supplies you need when time is of the essence!

HEADREST MOLLE

Our HD MOLLE Headrest Cover installs quickly and easily with no modifications to the headrest or seat. Hand crafted from military grade canvas and heavy-duty leather MOLLE straps, it can hold our quick-release First Aid Bag + Grab & Go bag as well as most MOLLE bags. The stylish design looks great with leather or cloth interiors.

Installation is easy - simply remove the headrest from the seat, wrap the cover around the headrest, pull it tight and secure the Velcro.

BETTER THAN MOLLE

TAILGATE STORAGE

Stronger. Better Looking. I wish I were talking about myself.

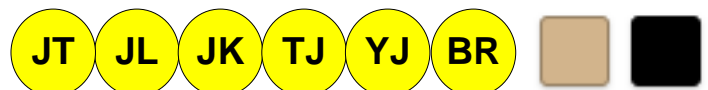

HD MOLLE TAILGATE PANEL

MOLLE. **M**odular **L**ightweight **L**oad-carrying **E**quipment. Designed by the military for easy attachment and organization of gear. MOLLE is a great way to organize storage in your Jeep, but most MOLLE products on the market are just not strong enough to handle the abuse of the trail. Or the mall. Our HD MOLLE Tailgate Panels are made from the same military grade canvas as our other products with real leather straps for attaching your pouches and other MOLLE gear. Perfect for use with our Grab & Go bags.

Tailgate Storage System Bundle:
3 Bags plus the HD MOLLE Tailgate Panel for the JK and JK, 2 Bags plus the HD MOLLE Tailgate Panel for the TJ/LJ.

Versions available for the JL/JLU, JK/JKU, TJ/LJ/YJ and Bronco, in black and tan.

TAILGATE ACCESSORY PANEL

A no-drill way to carry extra gear on your JK/JKU tailgate even if you already have a tailgate table or MOLLE solution on your tailgate. The Tailgate Accessory Panel replaces the snap-in access panel on the JK tailgate with HD MOLLE for carrying extra gear. It's compatible with most tailgate tables and tailgate storage solutions.

CUTLERY KEEPER

Can you please pass me a fork?

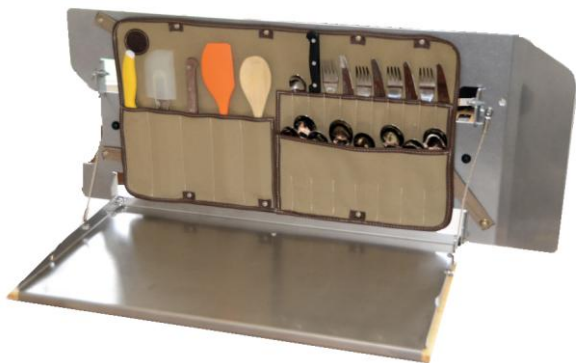

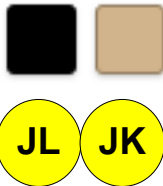

The Cutlery Keeper is the perfect storage solution for your trail kitchen. It rolls up for easy storage and fits nicely in our Roll Bar Bag. And if you've got an Outback Adventure Products Trailgater or a Goose Gear Tailgate Table, the Cutlery Keeper can be installed on the tailgate behind those tables, and it stays in place when the table is closed – your cutlery is ready for use as soon as you open the table!

Hand crafted with genuine leather, military grade canvas & brass reinforcements. Easy no-drill attachment with the Outback Trailgater and Goose Gear Tailgate tables.

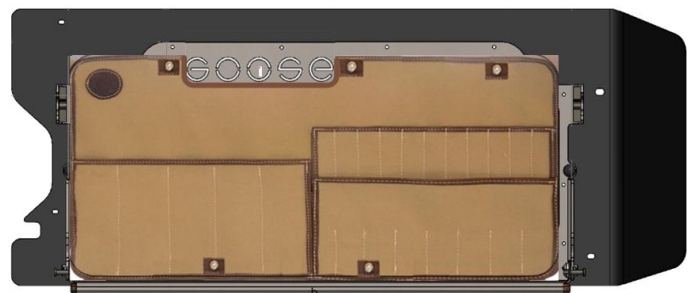

Available for use standalone and with the following tailgate tables:

OUTBACK
ADVENTURES

GOOSE
G E A R

Trailgater Cutlery Keeper available for both JK and JL Trailgater tables.

Goose Gear Cutlery Keeper available for the JL.

NEW PRODUCT!

CUTLERY ROLL

Roll up service for four with MOLLE

A convenient place to store your cutlery for four people, the Cutlery Roll spreads out to 15" wide x 10" tall yet rolls into a compact bundle for storage. MOLLE straps on the back enable it to hang on most MOLLE panels or store it in one of our Roll Bar Bags for out of the way storage on the roll bar. Grommets on the lid enable multiple hanging options.

Like all of our products, the Cutlery Roll is made from military grade canvas with real leather trim.

Cutlery not included; use your favorite utensils.

Roll it out on the camp table or use the grommets on the lid to hang it on a tree or the vehicle window using carabiners or suction cups (not included).

Rolls into a compact package; use the MOLLE straps to hang it on most MOLLE panels, also fits very nicely in a Roll Bar Bag (p.17):

GLADIATOR STORAGE SYSTEM

Improve storage in the cab.

GLADIATOR

The Gladiator Storage System is a unique storage solution for the dead space behind your Gladiator's rear seats. Six pockets of various sizes are on the panel and the panel has zippers that allow you to add Zip & Go bags that hang from the bottom edge of the panel providing additional storage.

For Gladiators without a subwoofer, three Zip & Go Bags can be attached; if a subwoofer is present one Gear Bag can be attached on the driver's side.

Installs in minutes: No drilling required - 4 Button head Allen bolt 8x25mm; 1.25 pitch included for Gladiators without hard tops.

Our Zip & Go bags can also be hung on the back of the front seat and come with the same zipper attachment that our Backpack bag uses.

GLADIATOR SADDLEBAGS

Improve storage in the bed too.

On a dry day, the bed of your Gladiator works great for hauling gear to and from your hunting spot, fishing lake, campsite or overland expedition, but how do you transport your gear when rain or snow is in the forecast? The Gladiator Saddlebags are the answer. Tough, durable and highly resistant to the elements, these bags keep your gear safe and dry when in the bed of your truck.

Measuring 17 inches wide, 8.5 inches tall and 6 inches deep, with 900 cubic inches of storage capacity these large but lightweight bags can hold almost anything. The heavy duty, commercial grade DWR-treated* polyester fabric is highly water resistant and also highly resistant to UV damage so these can stay in the truck all the time.

The bags secure to factory holes in the sides or front of the bed, and up to five bags can be installed depending on your cargo needs.

*DWR = Durable Water Resistant

OVERLANDING/CAMPING

It's called "your morning routine" for a reason.

CAMP CABINET

When you're out on an overland adventure it can be hard to organize the necessities of your daily routine – what do you carry them in, what workspace do you use (the bathroom sink is far away), and how to you inspect your work? No problem, the Camp Cabinet provides ample organized storage for all of your necessities, a convenient work surface and a high quality unbreakable mirror.

The bag opens into an organized workspace and easily hangs in almost any convenient place – you can hang it on a roll-down car window or the drip rail of your vehicle roof or use the clip-on carrying handle to hang it around a convenient branch or tent pole.

In addition to the pockets inside, there are outside pockets on each side of the bag for extra storage.

The Camp Cabinet is constructed from high-quality military grade canvas with natural leather accents and includes high-end features like stylish linings in the pockets. The mirror is high quality real glass, protected completely protected when the bag is zipped closed to prevent damage.

LIFE IS A PICNIC

If life is supposed to be a picnic,
why weren't we all born with this bag?

COOL BAG

Perfect for a picnic on the trail or carrying juice boxes for the kids at a soccer game, the Cool Bag provides a lot of cool capacity in a compact size. Designed with lunch for two in mind, the Cool Bag hangs conveniently on the back of the seat. It's easy to stow out of the way but quick to access when you need lunch, a snack or a drink. A shoulder strap makes it easy to take with you when you park on the trail to take a hike to that amazing overlook for lunch.

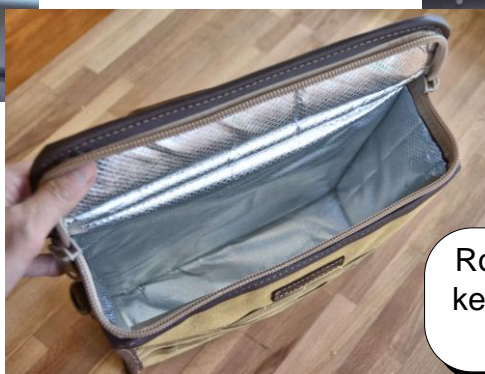

Conveniently hangs on the seat back – out of the way but handy for quick access

MOLLE gear such as the bottle holders on the side and the pouches on the front can expand capacity (extra pouches not included)

Shoulder strap for easy carrying to that special scenic overlook.

Roomy, insulated interior keeps your lunch, snacks and drinks cool.

Easily carrying two foot-long subs (or salads), drinks for two, deserts and snacks, the Cool Bag does a lot for its compact size. MOLLE grids on the front and both sides of the bag allows attachment of additional drink cooler pockets or MOLLE pouches for additional snacks or picnic gear.

The Cool Bag is constructed from high-quality military grade canvas with natural leather accents. Insulation and a waterproof interior keeps everything cool.

KEEP IT COOL WITH A COOL BAG!

AIR UP!

It's what you need to do after you air down.

COMPRESSOR BAG

A portable air compressor can be a very useful tool when you're on an expedition – whether for reinflating after airing down or for tire repairs on the trail, it can be one of the most important pieces of gear you carry. But how to carry it? Most compressor bags are too small to carry the compressor, an air hose and the many tools, accessories and tire repair supplies you might need to carry, not to mention being strong enough to carry all of the weight.

Space inside for a coiled air hose or a 25' FlexZilla air hose.

Additional inside pocket (behind air hose in this photo)

Space inside for all popular portable compressors and power cords as well as the air hose

Inside pocket for supplies – tire repair supplies, compressor accessories

Quick access to common tools like pressure gauge and inflator

Includes shoulder strap and carrying handles

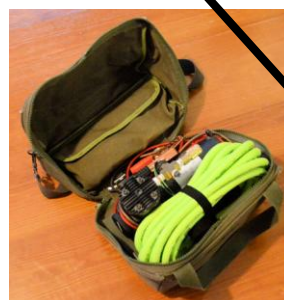

Optionally the compressor can be securely mounted in the bag with a user-supplied piece of plywood, and because the bag opens diagonally you can just open the bag, plug in the power cord, unroll the air hose and begin using the compressor without taking it out of the bag.

Shown above with a 25' Flexzilla air hose

In addition to the pockets inside, there are outside pockets for extra storage.

The Compressor Bag is constructed from high-quality military grade canvas with natural leather accents and includes high-end features like stylish linings in the pockets. The Compressor Bag is available in black only.

Made from military grade cotton duck with real leather accents and reinforcements, this bag can stand up to the toughest abuse your adventures will put it through, and do it with style.

Carrying handle with leather grip

Heavy-duty strap with comfortable shoulder pad

Five roomy outside pockets – one on each end, two on the front and one on the back

Wide pocket on the back for maps and other necessities

Roomy, lined interior

Leather dust/weather cover over the main zipper

Durable leather accents, reinforcements and luggage tag.

NEW PRODUCT!

TOTE BUDDY

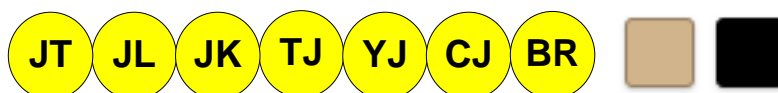

THERE WHEN YOU NEED IT

Has your state eliminated bags being given out with purchases at stores yet? So far Washington State, New Jersey, California, Connecticut, Delaware, Maine, New York, Oregon, and Vermont have adopted statewide bag laws, eliminating or restricting free plastic bags in stores. Coming soon to other states to be sure. And even if it isn't the law in your state, it just makes environmental sense not to take an environmentally unsound plastic bag every time you run into a store for a few items.

The Tote Buddy is the environmentally friendly answer. The nice thing about this collapsible bag is that it's easy to keep in the Jeep all the time and it's always ready for "honey, will you stop at the store and pick up a few things on the way home?". Also great for quick trips into other stores like Home Depot and Walmart and other local stores.

This compact tote bag folds to 5" x 6". It's made of real leather and high quality cotton and has MOLLE straps on the back for convenient storage in your vehicle, ready for any shopping trip.

Keep it in your Overland Outfitters door pockets... always handy!

NEW PRODUCT!

PERSONAL TOTE

GREAT GIFT IDEA!

Not every storage need is met by something that installs in your vehicle. This handy tote bag is stylish enough to be used as a purse but tough enough looking to be used by anyone for anything.

Like all Overland Outfitters products, the genuine leather handles, reinforcements and stylish accents exude quality.

The top zips closed so it can be tossed in the back of the vehicle with no worries that the contents will spill out; there's also a zippered security pocket inside for valuables such as a wallet, credit card, jewelry, etc.

Convenient carry handle in leather makes it comfortable to carry, and a shoulder strap keeps your hands free for other things

Roomy interior includes a secure zipper pocket for valuables:

GEAR/TRAVEL BAG

Coordinate everything – matching luggage.

This large and roomy bag is built to last & versatile. It's the perfect size for a weekend bag, a gym bag, yoga bag or just a luggage carrier. The Gear Bag is durable enough to hold all of your overlanding gear as well - Recovery Straps, Extraction Tools, Wrenches/Hardware, and anything else you may need to access!

Made from high quality canvas & genuine leather, this bag is both practical and stylish. The bag has an outer pocket ideal for your cell phone or other items you need to quickly access.

A care guide is included with the bag. When treated with Scotch guard, the Gear Bag is resistant to oil, dirt, and water - which makes it the perfect companion for outdoors travel and overlanding gear storage!

This is the bag to round out your storage collection - Durable, Versatile, and Stylish

Leather handles are long enough for over the shoulder use.

Available in Tan Canvas, Black and Red with Leather accents.

Dimensions: 29" w x13" h - 4900 cubic inches of interior space!

Colors and construction match our other products so you can outfit for your expedition with matching gear and luggage.

NEW PRODUCT!

CENTER IT' UP

A Roll Bar Buddy for the Main Roll Bar of your JK/JKU

JK CENTER BAR BUDDY

The Center Bar Buddy provides even more convenient storage on the roll bar. It's got two roomy pouches and a MOLLE strip – store gear in the handy pouches on one side and hang your favorite MOLLE accessories on the other. It's reversible, so the pouches can go in the front and the MOLLE in the back, or the other way around depending on your needs.

Above – the MOLLE side installed on the front with a MOLLE pouch attached. Left – the integrated pouches on the back side of the roll bar. Or install it the other way 'round and have the MOLLE on the back and the integrated pouches on the front. Easy Velcro installation.

TJ/YJ GEAR

Some love for the classic Wranglers.

The last of the TJ's was made in 2006 and many companies now put all their effort on JL and JK products but we know how much TJ and YJ folks love their rides and we do too. Our lead designer drives an '06 LJ and more often than not leaves his '13 JKU in the garage and takes the LJ to the mall or on the trail.

ROLL BAR BAG

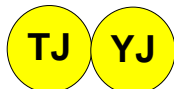

The “late model” guys might be jealous – JK and JL roll bars are so covered with plastic trim that there's very little “usable space” on them for storage. Not so on the classic Wranglers, just look at all the places you can make extra storage with the Overland Outfitters Roll Bar Bag (p. 17).

ROLL BAR BUDDIES

And while we're on the subject of roll bars, check out our Roll Bar Buddies. Just like a good buddy, they're there with what you need. Knife? Pliers? Flashlight? Your Tactical Roll Bar Buddy can hold those and more for quick and easy access. (p. 16).

GRAB BAR POCKETS

Your copilot will wonder how they ever lived without this extra storage. Stylish and functional, the Grab Bar Pockets provide 3 pockets in front of the grab bar, one with a top flap, and one larger pocket behind the grab bar. And it doesn't hang down too far – it won't get in the way of your copilot's legs. Tan, black or red. (p.15).

Above the front seats

Above the rear seats (LJ)

TJ/YJ GEAR

Even more love for these classic rides.

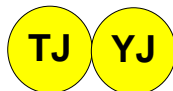

SEAT BACK STORAGE ATTACHMENT

A great place to add extra storage, seat-back storage attachments are now available for TJ and YJ Jeeps! Supporting both our Zip & Go bags (p. 10) and MOLLE attachments, you can add convenient storage for trail and expedition gear and everyday items right on your seat back.

MOLLE

Zip & Go>

Easy, slip-on installation. Looks good and works great:

SADDLE BAGS

Our best-selling Saddle Bags for the JK and JL (p. X) are now available for the LJ! Form-fit perfectly for the contours of the curves and slopes of the LJ's inner fenders.

Each Saddlebag provides over 500 cubic inches of stylish storage in high-quality leather and canvas. The zipper attachment makes it quick and easy to take a Saddlebag with you when you need its contents away from the Jeep - unzip the bag from its mounting strip and carry it away by the convenient handle; zip it back in place in the Jeep when you get ready to move on. No-drill installation using the factory supplied hardtop bolt holes. (p10)

Also great for classic Wranglers...

BRONCO GEAR

Outfitting your new Bronco for Overlanding and off-road expeditions? Or just looking to maximize your storage and organization for daily driving? Overland Outfitters has got you covered. Our storage solutions are hand crafted from military-grade canvas with real leather accents and reinforcements.

HD MOLLE TAILGATE PANEL

Add storage to your Bronco tailgate with the HD MOLLE Tailgate Panel. The HD MOLLE Panel and Grab & Go Bags are hand crafted using genuine leather and military grade canvas, styled with antique brass eyelets and reinforced with nylon. No-drill Installation is quick and easy!

GRAB & GO BAGS

The panel supports standard MOLLE gear and Overland Outfitters easy-attach Grab & Go bags – using a belt clip style attachment, Grab & Go bags attach and remove from the panel instantly, eliminating the hassle of threading MOLLE straps to hang a bag (p.18).

DOOR POCKETS

Replace the weak factory door pocket nets with a roomy, closed pocket made from heavy canvas and real leather. Provides much more space for gear than the weak factory net, and items in the pocket won't poke through or permanently stretch the net. No-drill!

Also great for the Bronco...
Check out the Storage On the Spare System (p4) and the SpareHopper (p6)

BRONCO GEAR

ROLL BAR BAG

The Roll Bar Bag fits perfectly on the Bronco's rear roll bars and can hold a recovery strap, a tool roll or many other pieces of essential gear. Made from the same heavy canvas and leather, the Tool Roll is a perfect fit in the Roll Bar Bag and a convenient place for critical tools (p.17).

TOOL ROLL

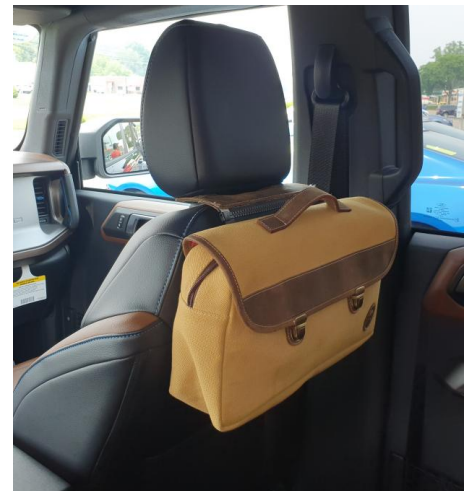

The Backpack Messenger Bag has a convenient zipper attachment; it hangs on the seat back and zips on or off in seconds. With the included shoulder strap or backpack straps it's a high quality, high style cargo carrier for any adventure, including bringing your laptop to an important meeting.

BACKPACK BAGS

A bit smaller than the Backpack Messenger Bag, the Zip & Go Bag is a shares the same convenient zipper attachment to the seat back and provides convenient, out of the way storage. (p.11)

The Molle headrest cover is a stylish way to add storage to the back of the headrest. With its easy velcro attachment it installs in a minute and standard Molle pouches and gear and easily be stored on it.

HEADREST MOLLE

Our Grab & Go First Aid Bag and 6" Gear Bag are the perfect complement to the Headrest Molle (p.18).

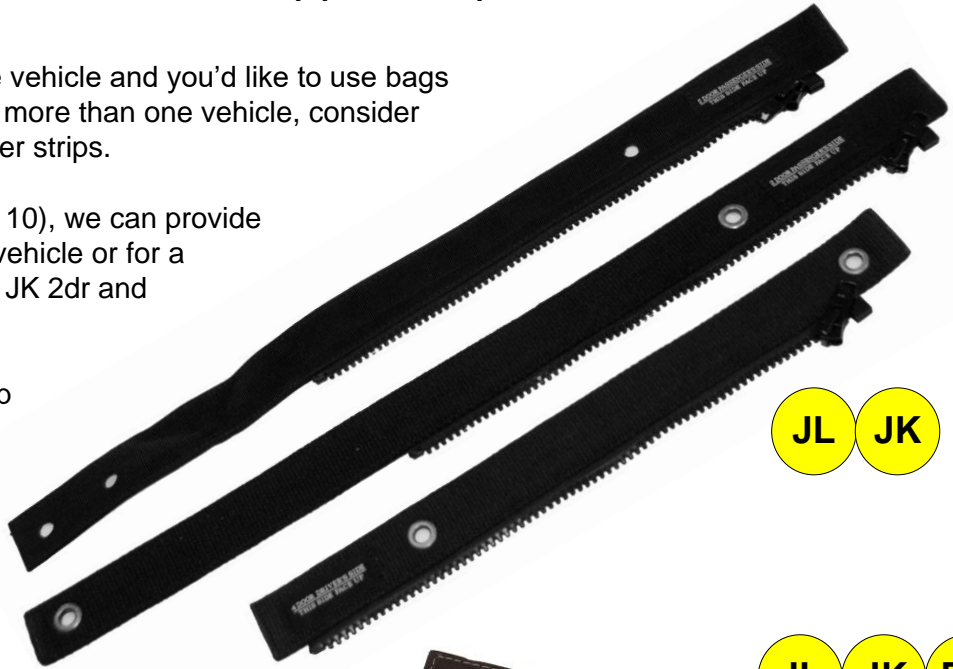

USE IT WHERE YOU NEED IT

Extra Zipper Strips

If you've got more than one vehicle and you'd like to use bags that attach to the vehicle in more than one vehicle, consider getting extra mounting zipper strips.

For our **Saddlebags** (page 10), we can provide Zipper Strips for the same vehicle or for a different vehicle. Our JKU, JK 2dr and JL 2dr Saddlebags are the same except for the zipper strips – you can keep zippers mounted in each Jeep and simply zip your bags into the Jeep you're taking on a particular expedition.

Zip & Go Zipper Strips. All of our bags that hang on the seat back use the same Zipper Strips, so you can get extras to hang your bags in any vehicle. Use these with the Backpack (p11), the 15" Zip & Go Bag (p11), the Cool Bag (p25) and the Tactical Tool Bag (p9). *We also offer a modifiable Zip & Go zipper strip that you can adjust to fit other vehicles with different headrest post spacing.*

Zip & Go for the JKU Fold-Down Rear Seat. Our Zip & Go bags come with Zipper strips for the front seat, but the design of the JKU fold-down back seat requires a different attachment because the headrest doesn't slip out of its sockets. These two-piece zipper strips make installation on the back seat easy, and they work well with the seat up or folded down.

Works with the JKU Fold-Down rear seat.

OUR CUSTOMERS SAY...

I received my order for the all the Gladiator gear and absolutely love all of it. I would like to make another order.... Thanks so much for delivering such a great product and I will be promoting your products at all the overland shows we attend throughout the year.

Alvin J.

I really love this storage bag. Fabulous quality. You get what you pay for, not cheap, but the quality shows why that is. Just remove the headrest and it is installed. Holds quite a bit. Very happy with it.

Mark K.

Top quality product, install a breeze, holds quite a bit of gear, plan on acquiring more from Overland Outfitters.

David G.

Perfect fit for my 2021 4xe wth factory subwoofer. Excellent quality with beautiful leather, canvas and plaid fabric. Easy to remove with zipper to carry away. Easy installation using the existing bolts (4) for the hardtop. Recommend.

Gary B.

These door panel pockets are great. Really well constructed, really great looking, and a huge upgrade over the terrible netting pockets that are integrated into the stock door panels. Installation was relatively easy...

Scott D.

Overland Sherpa Saddle Bag for our 2021 Jeep JL 4dr Sahara fits in perfect; so easy to install and use; perfect for our miscellaneous items and great use of space in the rear cargo area! TW S.

These bags are perfect for storage behind the rear seat, that space needs these saddle bags. They are very well made, heavy duty top leather and canvas with a nice lining. Love the way they zip out. Perfect for my Jeep.

Harry S.

Really like the "zip-ability" of the product. Use it a lot when I know I will be gather stuff outside the Jeep and coming back, but will be out for a while and don't want to carry all the stuff. Backpack option is great too. Fantastic quality. Lots of compliments.

Shelby S.

This bag complements my pair of saddlebags from their product line. The same praise applies to this great bag. Quality of craftsmanship and material used is great. It demonstrates attention to detail. I will certainly purchase other products from their portfolio. Another big plus is the fact that it is not made in China. Recommended.

Joerg B.

I was hesitant about purchasing this product because of the price, but when I got the product and saw the awesome quality, I knew it was a good purchase. Would recommend this to any jeep owner, great space saver and the added first aid kit will always come in handy.

John M.

We purchased a set of the front JL Door Storage Pockets from the Overland Outfitters website as a more robust solution to door storage for our 2019 JL. The factory netting just doesn't work. Fortunately Overland Outfitters recognized the inadequacy of the factory netting and designed a set of fully functional canvas and leather storage pockets that are consistent with the rest of their high quality, durable product line...

The OO Door Panel Pockets fully compliment the two OO JL Saddlebags for each side of the rear seat we purchased last year for the same 2dr JL, and the OO Cooler that fastens to a heavy canvas strip retained by the front seat headrest armature legs, and hangs against the rear of the front seat.

The Overland Outfitters quality materials and ingenious design make for an extremely high-value, effective storage solution for JL Wrangler front doors.

Brian S.

I purchased the saddle bags for my JLUR in black. They are exactly what I was looking for. They fit neatly into the space above the wheel that would otherwise go unused and they stay secure! They will provide much needed extra storage for off-road essentials I want to keep on hand!

Jennifer S.

Caring for your Overland Outfitters products

Overland Outfitters products are made from military grade cotton duck canvas fabric and real leather and are designed to give years of service on the road and trail. A soft and dry bristled brush can be used to remove any loose dust or dirt.

To keep your product looking new longer, we recommend treating the fabric with Scotchgard Auto Fabric & Carpet Protector. Scotchgard provides excellent resistance to water, oil and stains and it doesn't change the look and feel of the fabric, so the fabric stays soft and colors stay true. Scotchgard comes in an easy-to-use spray bottle.

If the canvas needs further cleaning, mix clean water and a small amount of mild detergent and use a damp towel or bristled brush dipped in the solution and scrub or rub the dirty areas gently. Lightly spray the canvas area with water to remove the soap residue and dry with a towel.

Note: Do not Dry-Clean, bleach or put in the dryer as these may discolor the canvas.

If your product will be exposed to extreme sun, for example your vehicle spends a lot of time with the top down or you park where intense sun shines through the vehicle windows, we recommend Scotchgard Water and Sun Shield, Gold Eagle 303 Aerospace Marine UV Protectant, Nikwax Tent & Gear SolarProof. These products offer additional protection from harmful UV rays and will also repel dust and dirt.

For the outdoor products (Storage on the Spare, SpareHopper and Gladiator Bed Bags) an occasional spray with a product like Scotchguard Outdoor Sun & Water Shield will help protect the fabric from UV damage and maintain its weather resistance. If the vehicle is out in the weather regularly, we recommend spraying approximately every six months, or more frequently in high sun environments.

WHEREVER YOUR ADVENTURES MAY TAKE YOU

Functional. Rugged. And do it with style.

Inspired by our own overland adventures, Overland Outfitters gear is designed to be functional and rugged – every piece is designed with specific needs in mind that just haven't been met by other products on the market while at the same time adding style to your adventure.

We use everything we design, we expedition test everything and if the design is truly useful and adds value to our adventures we offer it to you for your own adventures. Made from the highest quality materials including military grade 24 oz. canvas and real leather reinforcements and accents, our gear is designed to be as tough as you and your ride are – tough enough to serve and last for many adventures to come.

Whether it's to the wilderness or the mall, equip your adventures with Overland Outfitters gear.

Adventure tough, but whatever you do, know when to chill...
